

CONGRATULATIONS ON YOUR RETIREMENT!

Over the years, you and your co-workers have improved the lives of thousands of people in Racine County through your work and your generous giving. Retirement gives you the opportunity to do even more great things.

Your contributions to United Way have helped children and youth reach their full potential, families attain financial stability and independence, and people of all ages become healthy and safe. You are and continue to be an important part of our community.

Though a contribution through payroll deduction may no longer be available, the opportunity to support United Way remains. We invite you to continue to be a part of the change in Racine County.

HOW TO GIVE:

Your choice to give is personal and voluntary. If you're inspired to help make a difference...

- Simply fill out the attached pledge form and return it to United Way.
- You can choose to donate one-time, monthly or quarterly.
- You can still choose to donate to the Community Impact Fund, focus your gift on education, income or health, or designate to a United Way Partner Provider.
- Don't forget to include your email address so we can keep you informed of the good work that your investment is doing.

GIVE. ADVOCATE. VOLUNTEER.
