Thanks Wal den!

Working in this car show has been a good experience. That helped us understand the importance of group work.

Being the Chair man of the car show has open my eyes to see that hard work and everyone that plays role in ~~accuse~~ and works together we can accomplish anything. It may not be fun for me but I love not having fun because it brings me joy when others are having a good time. Chris Roberts' Chairman

Chris -

Great job with the Car Show! I don't even know anything about cars + yet enjoyed myself. There was a great variety - old / souped-up / RAM art van - something for everyone.

Everyone had a good time - music / raffle / + the cars.

Congratulations!
